The benefits of maintaining a healthier lifestyle

Help Yourself @ moodcafe.co.uk

On the following pages there are just some of the short, medium and long term benefits of maintaining a healthy lifestyle. If you're finding it difficult to motivate yourself, it might be help to print off the relevant information below and keep it somewhere to remind yourself e.g. in your wallet/purse, stuck to a cupboard or door in the house. Or write down a list of your own reasons for engaging in a healthier lifestyle so that all of them are personal and relevant to you.

Being active, eating healthy and maintaining a healthy weight

Short-medium term benefits of making healthier choices now:

- Improved mood
- More energy
- Sleep better
- Feel less tired
- Better concentration
- Healthier skin
- Better immune system so get ill less
- Better management of your weight
- More confidence
- Feel less stressed
- Feel happier
- Improved sex life
- Less chance of fertility problems
- Better management of your pain

Long term benefits of making healthier choices now:

- Reduced risk of serious illnesses e.g. heart disease, stroke, diabetes, cancers and other illnesses
- Reduced risk of high blood pressure, osteoporosis (thinning bones) and diabetes
- More likely to live longer
- Have a better quality of life when you are older
