The Fife One Stop Shop offers support, advice and information for people with autism, their families and professionals.

Based in Kirkcaldy, the Fife One Stop Shop offers people with autism, their families and professionals information and advice about autism as well as the kinds of support services that are available in the area and how to access them. As well as acting as an information hub, the One Stop Shop works closely with other groups and agencies, collaborating to understand and respond to the needs of the autism community.

The Fife One Stop Shop is managed by Scottish Autism, an organisation dedicated to enriching the lives of people with autism. Our approach is based on an understanding that autism is multidimensional and that each individual and family may face unique challenges and require varying levels of support and so we will provide information and advice that is meaningful to them.

Our experienced and friendly One Stop Shop team provides:

- Support to access the services you need, whether they are in the community or autism specific.
- Guidance to overcome barriers such as an unaddressed diagnosis and delayed intervention of support.
- A safe and friendly place to speak confidentially to someone who understands autism.
- Access to information and resources about autism.
